

## Gold Bull appoints VP Exploration and Geology Advisor

VANCOUVER, B.C., DECEMBER 3, 2020

Gold Bull Resources Corp. (TSX-V: GBRC) (“**Gold Bull**” or the “**Company**”) is pleased to announce it has promoted Mr. David Johnson to Vice President - Exploration and welcomes Mr. Randy Vance as a key Geology Advisor.

Gold Bull CEO, Cherie Leeden commented:

*David is already a highly regarded Gold Bull team member and we are delighted that David will be leading our ambitious upcoming exploration endeavours in the role of Vice President - Exploration. Geophysics is going to play a critical role in defining new discoveries in the Great Basin and David will continue to lead our team in that discipline.*

*I am also excited to welcome Randy Vance to our technical team. Randy is a well-respected Geoscientist who boasts a wealth of experience. Randy will serve to both mentor and challenge our Geology team in our pursuit to define and acquire additional ounces.*

A summary of the new appointments is provided below:

David Johnson: Vice President - Exploration

Mr. Johnson is a global mineral explorer with over 25 years experience across a wide variety of geological terrains, deposit types and geographic areas. With several discoveries to his credit and expertise in applying geophysical methods he brings a wealth of knowledge to the group. He led a successful in-mine exploration team at Independence Group and has been a key driver of the planning process for 2021 at Gold Bull.

Mr. Johnson has held technical specialist positions with major mining companies (Western Mining Corporation, Rio Tinto) and mid-tier producers (LionOre, Independence Group). He has served on the boards of private (Revelation Geoscience, a Vancouver-based multi-disciplinary geoscience consulting firm acquired by CSA Global) and public (Cassini Resources Ltd, an ASX-listed junior explorer) companies. As a consultant, he has provided advice to explorers in Australia, Asia, Africa, the Americas and Scandinavia.

Mr. Johnson graduated from University of Melbourne in 1990 with a Bachelor of Science with Honours in Geology. From 1995 to mid-1997, he completed a Master of Science degree at the University of Utah within the Consortium for Electromagnetic Modeling and Inversion (CEMI), funded by a WMC Company

Fellowship. He also holds a Graduate Diploma in Applied Finance from the Securities Institute of Australia.

Randy Vance: Geology Advisor

Mr. Vance is a Geologist with forty years experience (including 26 years with Newmont) of exploration in a wide variety of metallic deposits, including epithermal gold-silver veins, gold skarns, intrusion-related Au-Cu and IOCGs, and sedimentary-hosted massive sulfide deposits in the Belt Supergroup. Mr. Vance boasts extensive knowledge and specialized expertise of low-sulfidation bonanza veins, epithermal hot spring, and sediment-hosted gold-silver deposits in northern Nevada and the western U.S.

Mr. Vance is a proven leader of exploration teams in near-mine and grassroots environments, beneath headframes and in the bush. Mr. Vance has an ability to recommend and execute effective exploration programs using geology, geophysical surveys, remote-sensing tools, and regional concepts. He has participated in and managed small teams that discovered or expanded gold and silver deposits at Midas, Hollister, True North (Alaska), and Fire Creek.

#### About Gold Bull Resources Corp.

Gold Bull Resources Corp. is a gold focused exploration and development company with a portfolio of prospective projects located in Nevada and Utah, USA. Gold Bull is led by a Board and Management team with a track record of exploration success. Gold Bull's objective is to generate stakeholder value and superior investment returns through the discovery and responsible development of mineral resources.

Cherie Leeden
